

460HD SERIES

460HD SERIES offers a new, improved, heavy-duty, multipurpose carrier design with four-wheel drive, articulated steering, and special Young's Machine designed marsh mellow suspension.

460HD SERIES is an excellent option for all types of support vehicles from personnel, maintenance, scissor platforms, flatbeds, and special design electrician reel trucks. All of our equipment can be custom-built to accommodate your mining application.

Custom sizes built to your specific requirements.
Widths from 62" (1574 mm) to 74" (1880 mm).
** All dimensions subject to change **
