

470HD SERIES

470HD SERIES trucks are four wheel drive with articulated steering offering excellent maneuverability in confined areas and narrow vein mines. These trucks are built with quality workmanship and the very latest in mine proven components, giving high production with low maintenance costs.

470HD SERIES range from the very narrow 7 ton size, up through the larger 12 ton trucks. As with all of our equipment, these trucks can be custom built to accommodate your mining applications.

**CUSTOM SIZES BUILT
TO YOUR SPECIFIC REQUIREMENTS.**

Widths from 60" (1574 mm) to 74" (1879 mm).

All dimensions subject to change
