

960 SERIES

960 SERIES offers a simple and inexpensive line of ore haulage equipment designed for small heading operations. The basic, uncomplicated design provides easy maintenance and very economical operation.

960 SERIES dump truck models range from 3.5 ton up through 10.5 ton size. Their size and capacity makes them valuable; with low initial cost and high production.

**CUSTOM SIZES BUILT TO YOUR
SPECIFIC REQUIREMENTS.**

Widths from 62" (1574 mm) to 86" (2184 mm).
